

Primary Infection Prevention - Two Tracks!
Track 1: Prevention for All Health Care Settings, Acute Care Hospital, Ambulatory Care & Surgical Centers
Track 2: Prevention for All Health Care Settings and Long-Term Care and Assisted Living Facilities

The Nebraska Infection Control Network (NICN) Primary Infection Prevention course offers a combination of lectures, discussions and educational activities pertaining to the prevention and control of infections in a variety of health care settings. The first day will focus on infection and prevention for all health care settings, and all attendees will be together for this day. Day two will focus on Acute Care Hospital, Ambulatory Care & Surgical Centers, or Long-Term Care and Assisted Living Facilities. Participants will choose which track when registering.

We welcome nurses and any other healthcare providers interested in learning more about the core components of infection prevention and control in healthcare settings.

These activities are being jointly provided by Nebraska Methodist College Professional Development and The Nebraska Infection Control Network (NICN).
