

# INFECTION CONTROL RISK ASSESSMENT AWARENESS CLASS

The University of Iowa College of Nursing is an Iowa Board of Nursing approved provider, Number 1. For full time attendance, 7.5 contact hours will be awarded.

July 20, 2023 • 8:00 a.m. - 4:00 p.m.  
Carpenters Training Center  
10761 Virginia Plaza, Papillion, NE 68128

- Promotes the **communication, awareness, and protocol** required for working in an occupied health care facility.
- Outlines **protection methods and safe work practices** for various trades and hospital personnel working in these types of facilities.

## AREAS OF FOCUS:

### AWARENESS

- Importance of hazardous material awareness
- What makes an occupied facility unique?
- Potential hazards that may be found when working in an occupied facility

### CONTROLLING CONTAMINANTS

- Difference between contaminants and infectious agents
- Different types of construction barriers
- Proper way to use a HEPA machine
- Difference between positive and negative air flow

### MOLD

- Why is mold unique in a health care facility?
- Mold remediation process
- How can mold change the scope of work?

### ADMINISTRATIVE CONTROLS

- The role of an ICRA team
- Teaches you how to read an ICRA form
- Importance of a firestop system in an occupied facility

### WORK PROTOCOL

- Important safety considerations when working in an occupied facility
- Importance of using designated routes when bringing construction material to and from the jobsite
- Why is it important to cover equipment and finishes?
- Importance of placards
